

Healthcare Mobilization in Northern Uganda

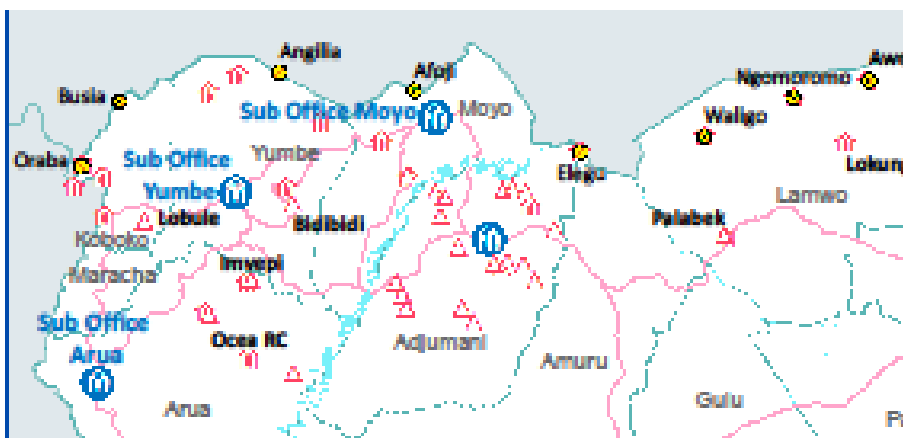

TARGET POPULATIONS: Acholi, Karamojong, South Sudanese Refugees

PROGRESS: Varies

BIBLE TRANSLATION: Varies

PEOPLE GROUP

Northern Uganda houses an interesting mixture of people groups. Some are Ugandan in origin (e.g. Acholi and Madi) and others are refugees from South Sudan (e.g. Dinka (Bor, Rek, and Padang), Nuer, etc.). They have varying levels of spiritual maturity but share the need for mission mobilization for kingdom work.

MINISTRY DESCRIPTION & PLATFORM

This opportunity is for someone with healthcare training or youth considering healthcare work. You will work alongside established medical missionaries in the Anglican (Church of Uganda) Diocese of Northern Uganda. Exposure to a variety of healthcare experiences makes this placement unique. You will work in established Health Centres (including a government hospital and a diocesan Health Centre), do medical outreaches among South Sudanese refugees living in northern Uganda and the Karamojong, accompany the Director of the Diocesan Health Programme for assessment and planning activities, engage with medical student fellowships, interact with African healthcare workers ("Timothys" who are being mobilized for medical mission work) as well as develop your own approach to healthcare as compassion ministry.

Your ministry will involve prayer strategies (walking/driving, spiritual mapping, prayer for movements) along with learning language and culture while looking for open doors and bridges for the Gospel. All this work will be done as you build interpersonal relationships among local people. As relationships are established discipleship can begin even before they have come to follow Christ using Discovery Bible Study (DBS) methods. You will engage in DBS groups as a part of the Disciple Making Movements (DMM) already emerging in northern Uganda in various areas. You will look for platforms and opportunities for other field partners to join you in reaching and mobilizing people in Uganda. You will look for resources, networks and opportunities for partnerships with other organizations and individuals as you develop strategies for multiplying movements among the people groups living in northern Uganda.

We have Global Teams Field Partners presently working in healthcare in northern Uganda

AVAILABLE PLATFORM: Healthcare Ministry Internship

If you are a follower of Christ, have a heart for those who have not yet been reached, are ready and willing to relocate and learn a second language, are excited to build a team in the field with people from other cultures and if you are ready to respond to God's call to go, we are ready to send you.
